ABOUT US

For nearly four decades, Com-Pac Filtration has proudly operated in Jacksonville, Florida, as the premier aquatics solution provider. Our in-house manufacturing ensures a seamless process, providing clients with a single warranty and point of contact for top-quality aquatic products and exceptional expertise.

Our commitment to unmatched quality is evident in the design, craftsmanship, and installation of top-tier aquatic solutions with excellence.

HAIR & LINT STRAINERS

Optimal Pool Flow Solutions

Upgrade effortlessly with our durable, easy-install Hair & Lint Strainers. Experience efficient debris capture, hassle-free maintenance, and innovative features for enhanced system performance.

- **Durable Coating for Longevity**

Benefit from epoxy-coated stainless steel, ensuring durability and corrosion resistance.

- **Offset Design for Flexibility**

Achieve seamless integration with offset inlet/outlet options, providing installation flexibility.

- **Large Capacity Collection**

Experience superior debris capture through the ingeniously designed large-capacity system, meticulously optimizing overall filtration performance.

- **Convenient Tool-Less Entry**

Streamline maintenance tasks with tool-less entry, making strainer access and cleaning hassle-free.

- **Enhanced Functional Features**

Explore a variety of innovative features, including trapped sealing hand nuts, a clear top for visual inspection, integral priming and drain ports, and an integral air bleed valve—all contributing to an enhanced performance of your system.
