ABOUT US

For nearly four decades, Com-Pac Filtration has proudly operated in Jacksonville, Florida, as the premier aquatics solution provider. Our in-house manufacturing ensures a seamless process, providing clients with a single warranty and point of contact for top-quality aquatic products and exceptional expertise.

Our commitment to unmatched quality is evident in the design, craftsmanship, and installation of top-tier aquatic solutions with excellence.

STAINLESS STEEL TANKS & SUBTERRANEAN VAULTS

Crystal Clear Pool Solutions!

Discover excellence with our durable stainless steel tanks in custom sizes. Our subterranean vaults innovate water quality for your commercial pool.

- **Unparalleled Quality**

Our filtration systems feature a robust stainless steel tank, ensuring longevity and resilience.

- **Versatility At Its Best**

Opt for free-standing or direct burial options for precisely tailored solutions.

- **Customization Beyond Limits**

Tailor your filtration system to perfection. Our stainless steel tanks can be fabricated to virtually any size or shape, offering a bespoke solution for your unique needs.

- **Durability Redefined**

Invest with confidence in our exceptionally durable filtration systems, backed by a 10-year warranty to safeguard against manufacturing defects.

Elevate your pool experience with cutting-edge stainless steel tank filtration systems and subterranean vaults, offering unmatched quality, versatility, and durability – all in one comprehensive solution. Trust in excellence for a worry-free aquatic environment.
